PROFESSIONAL PROFILE

iOS Developer with a background in mathematics and strong analytical problem-solving skills, specialized in native iOS development and building real-world mobile applications. Before transitioning to software development, I worked for approximately 10 years as a mathematics teacher, which strengthened my logical reasoning, structured thinking, and ability to analyze complex problems, skills that translate naturally into programming.

I am currently a **scholar at the Apple Developer Academy**, where I develop projects for the iOS ecosystem with a focus on **Swift**, **SwiftUI**, **UIKit**, and software architecture. Alongside this, I am pursuing a degree in **Internet Systems Technology** at **IFRS**, deepening my knowledge in algorithms, data structures, and object-oriented programming. I have a particular interest in building well-structured iOS applications, writing clean and maintainable code, and creating purposeful digital solutions.

PROFESSIONAL EXPERIENCE

Software Development

iOS Development Student – Apple Developer Academy Jan 2025 – Present
PUCRS Porto Alegre, RS
Involved in the design and development of iOS applications using **Swift**, **SwiftUI**, and **UIKit** across the full product lifecycle, from ideation and user research to prototyping, implementation, testing, publishing, and continuous iteration. Development within collaborative teams using agile methodologies, with participation in technical decisions, interface design, and product validation, focusing on **user-centered design**, **accessibility**, and Apple ecosystem best practices. Experience with integration of **Artificial Intelligence features** (intelligent agents and LLM-based workflows), **monetization strategies** (in-app purchases), use of **App Store Connect** (TestFlight, builds, metadata, and publishing), implementation of **CI/CD pipelines**, integration with external APIs and Apple frameworks, as well as iterative prototyping and usability testing. Participation in multidisciplinary projects involving product discovery, architecture decisions, and App Store publishing, with a focus on building scalable, production-ready applications.

Education

Mathematics Teacher 2021 – 2024
Curso Meta Porto Alegre, RS
Preparatory course for ENEM and university entrance exams. Responsible for teaching mathematics, developing structured teaching materials, and contributing to the preparation of the preparatory workbook used by students. Focused on developing logical reasoning, problem-solving skills, and specific strategies for college entrance exams.

Mathematics Teacher 2021 – 2025
Universitário Porto Alegre, RS
Mathematics teacher at Colégio Universitário, working simultaneously in regular full-time schooling and part-time university entrance exam preparatory courses from January 2021 to February 2025. Responsible for planning and delivering lessons, developing learning activities using modern educational methodologies and technology, creating engaging learning environments, and using digital tools to support the understanding of mathematical concepts. Also worked in preparatory courses for highly competitive entrance exams, focusing on problem-solving guidance, strengthening logical reasoning, and consolidating key exam content. Strong emphasis on developing analytical thinking and adapting teaching strategies to different learning styles.

Mathematics Teacher 2016 – 2019
AlphaHelp Porto Alegre, RS
Mathematics teacher at AlphaHelp, working in both university entrance exam preparatory courses and private tutoring.

Responsible for teaching mathematics, creating instructional materials and exercise lists, and supporting students in developing problem-solving skills and understanding the key concepts required for entrance exams.

Mathematics Teacher 2013 – 2016
EducaMed & PEAC Porto Alegre, RS
Worked in community-based courses focused on educational inclusion and democratizing access to higher education. Preparatory classes for ENEM and university entrance exams.

EDUCATION

Associate Degree in Internet Systems Technology 2025 – Present
IFRS – Federal Institute of Rio Grande do Sul Porto Alegre, RS
Focus on algorithms, data structures, object-oriented programming, web development, and databases.

Bachelor's Degree in Mathematics Education 2018 – 2022
UFRGS – Federal University of Rio Grande do Sul Porto Alegre, RS
Comprehensive training in mathematics with emphasis on didactics and logical reasoning.

TECHNICAL SKILLS

Strong experience in: Swift, SwiftUI, UIKit, CoreData, SwiftData, Git/GitHub, MVC, MVVM, MV, Factory, Singleton, Coordinator, Responsive Design, Figma
Good knowledge of: Concurrency (async/await, DispatchQueue), Memory Management, Dependency Injection, Design Patterns, App Lifecycle (UIKit and SwiftUI), Property Wrappers, RESTful APIs, Error Handling (try/throws), Accessibility, Localization and Internationalization, CloudKit, Scrum/Agile, AI Agent Development, Agent Skills
Basic knowledge of: Unit and UI Testing, CI/CD, Local and Push Notifications, SwiftUI Widgets, WatchConnectivity, watchOS Development, Swift Package Manager, CocoaPods, Clean and VIPER Architectures

LANGUAGES

Portuguese: Native
English: Intermediate proficiency (reading, writing, speaking, and listening)
